

## 2017-18 National Distinction Salary Adjustments

### FINANCE AND RESOURCE MANAGEMENT COMMITTEE

September 26, 2017

As described in the 2017-18 Faculty Compensation Plan, approved by the Board of Visitors at the June 5, 2017 meeting, faculty salary adjustments are normally implemented within three categories: Promotion & Tenure, a university-wide Faculty Merit Review process, and through the use of supplemental actions to achieve certain targeted salary compensation or retention needs such as recognition of national distinction. Consistent with the Board approved 2017-18 Faculty Compensation Plan, this report presents the proposed salary adjustments for faculty with demonstrated national distinction and exceptional performance in their role.

National distinction can be demonstrated in a variety of ways. Some examples include creating high impact research and scholarship, chairing an NIH study section, serving as president of a national/international society, serving as a juror for nationally competitive installations and performance venues, serving as an invited participant in a national workshop, implementing innovative processes that support university operations, solving complex challenges (including those within Destination Areas), and supporting advancement of university strategic priorities. Faculty who have demonstrated sustained excellence that is recognized nationally (and internationally) are often approached to consider a faculty position at another university.

To facilitate the 2017-18 national distinction review process, each academic and administrative area was provided with a resource pool based upon the area's base salary budget (0.75 percent of base 208 E&G faculty salary budget). The university also authorized each senior management area to reallocate existing resources or identify self-generated revenue (Agency 229, sponsored, overhead, or private funds) to enhance the overall pool as needed.

Because of the nature of this program, only a relatively small percentage of eligible faculty are recognized in any given year. The university has established five percent as the minimum salary adjustment for this year's program. As a result, Deans and Vice Presidents recommended adjustments for 299 faculty members (7.1 percent of all eligible faculty) with exceptionally meritorious records and/or national distinction in their field. The average recommended merit increase equals 6.6 percent for teaching, research, and administrative and professional faculty. The recommended salary adjustments for national distinction are listed in the attached report.

#### **RECOMMENDATION:**

That the proposed national distinction salary adjustments for faculty in the 2017-18 fiscal year be approved as presented in the following report.

November 6, 2017
