For fiscal year 2020-21, the audit plan includes more than 25 audit projects, with approximately 76 percent of available resources committed to the completion of planned projects.

6. **Discussion of Future Topics:** The Committee discussed topics to be covered in future committee meetings.

There being no further business, the meeting adjourned at 4:50 p.m.
As part of the internal audit process, university management participates in the opening and closing conferences and receives copies of all final audit reports. The audited units are responsible for implementing action plans by the agreed upon implementation dates, and management is responsible for ongoing oversight and monitoring of progress to ensure solutions are implemented without unnecessary delays. Management supports units as necessary when assistance is needed to complete an action plan. As units progress toward completion of an action plan, the Office of Audit, Risk, and Compliance (OARC) performs a follow-up visit within two weeks after the target implementation date. OARC is responsible for conducting independent follow up testing to verify mitigation of the risks identified in the recommendation and formally close the recommendation. As part of management’s oversight and monitoring responsibility, this report is provided to update the Compliance, Audit, and Risk Committee on the status of outstanding recommendations. Management reviews and assesses recommendations with university-wide implications and shares the recommendations with responsible administrative departments for process improvements, additions or clarification of university policy, and inclusion in training programs and campus communications. Management continues to emphasize the prompt completion of action plans.

The report includes outstanding recommendations from compliance reviews and audit reports. Consistent with the report presented at the May Board meeting, the report of open recommendations includes three attachments:

- **Attachment A** summarizes each audit in order of final report date with extended and on-schedule open recommendations.

- **Attachment B** details all open medium and high priority recommendations for each audit in order of the original target completion date, and with an explanation for those having revised target dates or revised priority levels.

- **Attachment C** charts performance in implementing recommendations on schedule over the last seven years. The 100 percent on-schedule rate for fiscal year 2020 reflects closing 19 of 19 recommendations by the original target date.

The report presented at the May 21, 2020 meeting covered audit reports reviewed and accepted through March 31, 2020 and included nine open medium and high priority recommendations. Activity for the quarter ending June 30, 2020 resulted in the following:

- Open recommendations as of March 31, 2020 9
- Add: medium and high priority recommendations accepted May 21, 2020 5
- Subtract: recommendations addressed since March 31, 2020 6
- Remaining open recommendations as of June 30, 2020 8

While this report is prepared as of the end of the quarter, management continues to receive updates from OARC regarding auditee progress on action plans. Through August 5, 2020, OARC has closed one of eight outstanding medium and high priority recommendations. The remaining open recommendations are progressing as expected and are on track to meet their respective target due dates. Management continues to work conjointly with all units and provides assistance as needed to ensure action plans are completed timely.

Audit Plan Update

Audits were performed in accordance with the fiscal year 2019-20 annual audit plan at a level consistent with the resources of the Office of Audit, Risk, and Compliance (OARC). Seven risk-based audits have been completed since the May board meeting.

The following two audit projects are underway: Athletics and Center for the Arts. Additionally, an advisory service project related to international dependencies was underway but will be carried forward as work ceased due to the COVID-19 effects to campus units.

In fiscal year 2019-20, OARC completed 88 percent of its audit plan as depicted in Exhibit 1.

Summary of Audit Ratings

The Office of Audit, Risk, and Compliance’s rating system has four tiers from which to assess the controls designed by management to reduce exposures to risk in the area being audited. The auditor can use professional judgment in constructing the exact wording of the assessment in order to capture varying degrees of deficiency or significance.

Definitions of each assessment option

Effective – The audit identified opportunities for improvement in the internal control structure, but business risks are adequately controlled in most cases.
**Improvements are Recommended** – The audit identified occasional or isolated business risks that were not adequately or consistently controlled.

**Significant or Immediate Improvements are Needed** – The audit identified several control weaknesses that have caused, or are likely to cause, material errors, omissions, or irregularities to go undetected. The weaknesses are of such magnitude that senior management should undertake immediate corrective actions to mitigate the associated business risk and possible damages to the organization.

**Unreliable** – The audit identified numerous significant business risks for which management has not designed or consistently applied controls prior to the audit. Persistent and pervasive control weaknesses have caused or could cause significant errors, omissions, or irregularities to go undetected. The weaknesses are of such magnitude that senior management must undertake immediate corrective actions to bring the situation under control and avoid (additional) damages to the organization.

**RECOMMENDATION:**

That the internal audit reports listed above be accepted by the Compliance, Audit, and Risk Committee.

August 24, 2020
The Auditor of Public Accounts (APA) began the audit of the university's financial statements for fiscal year 2019-20 with the entrance conference on May 14, 2020. The APA is currently in the initial stage of the audit where they review transactions and test internal controls over the university's financial processes. Through early August 2020, the audit seems to be progressing as planned, and the APA has not provided any audit comments or recommendations for improvements. At this time, we are not aware of any issues that would prevent the successful completion of the fiscal year 2019-20 audit by the targeted deadline of October 31, 2020.
The Chair of the Compliance, Audit, and Risk Committee will discuss agenda items for future meetings and adjourn the committee meeting.
